

# O Bulldog

A ABRABULL, e CONSELHO DE ÁRBITROS DA CBKC convidam para mais uma palestra técnica sobre a raça Bulldog Inglês, no próximo dia 21/03/15, sábado, às 17:00hs, em conjunto com a 19ª Copa Paulista ABRABULL, que será realizada por ocasião das exposições do KCSP no Hotel Del Verde em Itapeverica da Serra, SP

...stout, chuffling gait and massive, short-faced head, the Bull-dog is known to be cowardly, recalcitrant and dignified. A medium-sized dog, they are not your typical lap dogs, but would like to be!

They are one of the most popular breeds due to their lovable and gentle dispositions and adorable wrinkles. The Bulldog may be wrinkled, white, red, fawn, fallow or pied. Bulldogs are recognized as excellent family pets because of their tendency to form strong bonds with children. They tend to be gentle and protective. The breed requires minimal grooming and exercise. Their short nose makes them prone to overheating in warm weather, so make sure to provide a shady place to rest.

a wide head and shoulders  
b short muzzle with bulge above the nose  
c hanging chin under neck  
d drooping lips  
e sometimes an underbite

## Palestrante:

**Carlos Albuquerque**  
Criador e sócio fundador da ABRABULL

## Programa:

- Histórico da raça
- Padrão comentado
- Julgando o Bulldog
- Perguntas e respostas

Mais informações podem ser obtidas pelo email: [contato@abrabull.com.br](mailto:contato@abrabull.com.br)  
As inscrições gratuitas podem ser feitas no local da palestra ou previamente na Abrabull.  
A palestra será válida para o treinamento de juizes TPO e o Conselho de Árbitros emitirá certificados de presença aos candidatos participantes.

Generally, Bulldogs are known for getting along well with children, other dogs, and cats. They can be reattached to home and family that they will not venture out of the yard without a human companion and are more likely to sleep on someone's lap than chase a ball around the yard.
